

A string is the vibrating element that produces sound in string instruments.

Strings is a collection of sampled string instruments processed through the incredible features of iZotope Iris to get a wide range of new sounds. This soundscape includes synths, pads, soundscapes, drones, and many effects derived from strings samples. The sampled instruments were a Tenayo AutoHarp, a Romanian Toy Harp, a Baton Rouge Soprano Ukulele, a Chinese Violin, and a Squier Bass. The modulation wheel is assigned to different parameters in each patch. You can also access the original samples to create your own presets.

Specifications

- 50 Iris Patches
- 26 Samples (44.1kHz / 24Bit)
- Formats: Iris and WAV
- Sample sets including:
autoharp, toy harp, ukulele, bowed violin, bass

Installation

Once *AudioThing_Iris_Strings.zip* is downloaded, you need to unzip it using a type of software like WinRAR or UnRARX and follow these steps:

1. Locate your Iris Library Location, by default:
OSX: Macintosh HD/Library/Application Support/iZotope/Iris/Iris Library
Windows 7: C:\Users\\Documents\iZotope\Iris\Iris Library
2. Copy/move the Strings folder located inside the Patches folder from *AudioThing_Iris_Strings* into the Iris Library Patches folder
3. Copy/move the Strings folder located inside the Samples folder from *AudioThing_Iris_Strings* into the Iris Library Samples folder
