About

Spheres is a collection of 64 patches for Massive including pads, leads, basses, soundscapes, synth tuned percussions/mallets, sequences and more. These patches weren't designed for a specific genre, instead they were crafted trying to follow a leitmotiv: round shapes, bouncing sounds and circular sequences. Every patch feature macro controls assigned to the main parameters. The sequenced patches can be played as normal patches turning down the Sequence macro control knob. As you can listen in the demos, this soundset can be used in many genre from '80s stuff to IDM and modern ambient/electronica.
Specifications

- 64 Patches
- Multiformat: KSD and NMSV
- Size: 1 MB installed
- Macro Controls assigned to main parameters

Installation

Once *AudioThing_Massive_Spheres.zip* is downloaded, you need to unzip it using a software like WinRar or UnRarX. You have two folders for the same patches but in different formats: KSD and NMSV. If you have an old version of Massive (1.2.*) you need to use the KSD format; for newer versions of Massive (1.3.*) you need to use the new format NMSV. You can load single patches manually through "File → Open Sound" or you can add Spheres to the database following these steps:

1. File → Options → Browser
2. Click "Add" and choose the right Sphere format folder
3. Click "Rebuild DB"
4. Click OK

You should now see the patches in the Browser tab.

Patches List

Backgrounds	Clarin Set	Glitch Acid	Luna	Rhino	Soundscape #3	Touches
