SPEAKER

Speaker is a simple overdrive effect with speaker emulation, featuring a fixed compressor, gain stage and mix knob.

Speaker can be used to make any audio source sound as if it's being played on an old radio. It can also be used to emulate a cheap guitar cabinet or to give harshness to any sound.

The Speaker Model switch offers a choice of Bass, Mid and High speaker models, each one using distortion and filtering to narrow the signal down to the stated range.

INSTALLATION

MAC OS

- Double click on the DMG archive to extract it
- Right click on the PKG installer and click open
- Follow the instructions to install the plug-in(s)

WINDOWS

- Extract the ZIP archive
- Double click on the setup file (.exe)
- Follow the instructions to install the plug-in(s)

REGISTRATION

In demo mode the plug-in will output silence for 3 seconds every 45 seconds, and you won't be able to save presets.

You can open the registration window by clicking on the ☰ icon next to the bypass button, in the top-right corner.

You can choose between *Online* and *Offline* authorization.

ONLINE

- If you haven't created an account yet, you can [signup here](#) using the same email address used at check out.
- Just input your credentials into the text fields and click on Log In

OFFLINE

- Download the license file from [your account](#).
- Copy the file to your offline computer.
- Just drag and drop the license into the registration window or click on the *Load License File* button and browse to the downloaded license.

PARAMETERS

<i>Drive</i>	Controls the amount of overdrive/distortion to apply.
<i>Gain</i>	Controls the gain level of the wet signal.
<i>Mix</i>	Controls the balance between wet and dry signals.
<i>Compressor</i>	Enables or disables the Compression.
<i>Speaker Model</i>	Selects the type of speaker emulation to use.

FEATURES

RANDOMIZER

It is possible to randomize all the parameters in the interface by clicking on the Random button in the top bar.

Right-clicking on a parameter will show the Randomizer menu.

<i>Lock/Unlock Random</i>	Selects if the parameter can be randomized
<i>Lock All</i>	No parameters will be randomized
<i>Unlock All</i>	All parameters will be randomized

By clicking on the  icon you can access additional features.

WINDOW SIZE

You can resize the plugin window using three predefined sizes (*small, standard, big*). You can also resize the plugin window by clicking and dragging the bottom-right corner of the interface. Double clicking will reset to the *standard* size.

PRESET COPY/PASTE

You can easily share presets by using this Copy/Paste feature instead of sharing the actual preset file.

By clicking on *Copy to Clipboard*, the status of all parameters will be saved to the Clipboard.

By clicking on *Paste from Clipboard* instead, you can load a preset shared using the previous function.

END

WHERE IS EVERYTHING?

The installer will place the plugins, presets and other data in these folders.
