Santa is coming to AudioThing! As the title suggests, **Xmas Beer Bottles** features samples from beer bottles especially brewed for Christmas. You will find carefully drunk sampled whistles, hits, and sound gestures along with custom sound designed instruments. As our gift to you, the price is pay what you want!

Specifications

- 16 Kontakt Instruments (.nki)
- 2 Kontakt Multis (.nkm)
- Up to 5 Round Robin samples
- 35 Samples (44.1kHz / 24Bit)
- Formats: Kontakt and WAV
- Sample sets including:
  bottle whistle, hits and gestures

Installation

Once the *AudioThing_Xmas_Beer_Bottles.rar* file is downloaded, unzip it using WinRar or UnRarX or a similar type of software. It is recommended that you preserve the internal folder structure, but you can also place the instruments and samples into separate folders. Kontakt will ask for the new path the first time you run the instrument. Kontakt 4 or higher is required to run the instrument. For a limited period of time, Kontakt Player will run a limited demo version of this library.

Overview

Effects

Chorus – Amount of Chorus output

Reverb – Amount of Reverb output

Envelope

Attack – Attack time of the Volume envelope

Release – Release time of the Volume envelope
