

Soundscapes, textures and ambiences ready to use as AU/VST plug-in. These sounds are divided in two main categories as the source materials: concrete and gear. The raw concrete samples were recorded in different places across Europe (Paris, Dublin, London and Naples) using studio or handy equipment. The raw gear samples were recorded from hardware synthesizers like a **Custom Eurorack Modular Synth**, guitar pedals and noisy toys like a **Thingamagoop 2**.
